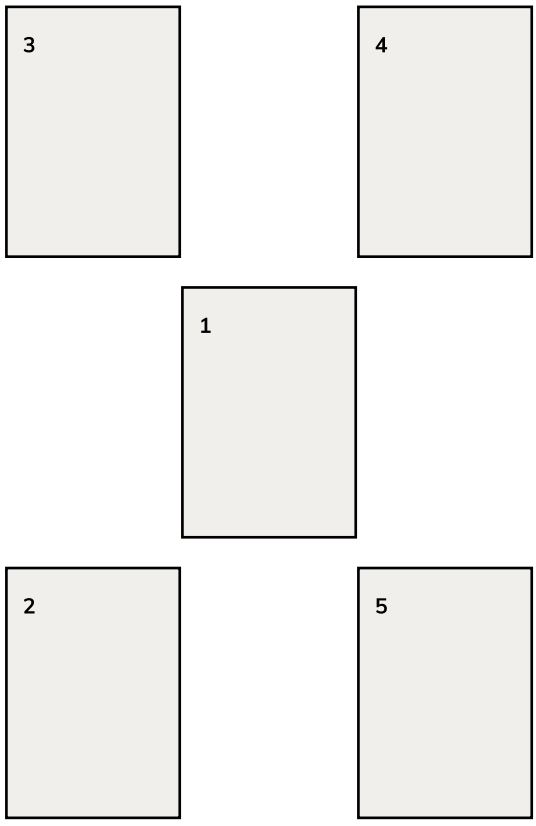
TAROT CHEAT SHEET

speak with a loved one

The **Conversation with a Loved One Spread** is intended to help you connect with the energy of a loved one who has passed. It's essential to set the intention to only communicate with beings of Light and Love, and to be clear that you are reaching out specifically to your loved one. You may wish to light incense or candles and use other divination tools to enhance this connection. Allow your intuition to guide the conversation, and be open to the messages you receive.



1. **A card to represent the person who has passed on**
2. **How they see their own lives, on reflection.**
3. **A lesson they would like to share**
4. **Something they wished they had given more attention.**
5. **A message they would like to share.**

Use this spread when you want to feel close to a loved one who has passed, to receive guidance or messages from them, or to understand their perspective on life now that they are on the other side. It can be a comforting and insightful experience, but be sure to set clear intentions and be open to the subtle messages that may come through.
